Board of Mayor & Aldermen

City of Vicksburg Officials

1401 Walnut Street

Vicksburg, MS 39180

Dear Board of Mayor and Aldermen,

We are a group of ordinary individuals endeavoring to bring extraordinary change to the world. Our desire is to make the most of our lives and leave a legacy that reaches generation yet to be born. History is still being written, so we are concerned about our story. The future is determined by our actions or lack thereof. There are many problems in the world today and few solutions. We will be a solution. In everything we do, excellence and in integrity is at the forefront.

We exist to inspire students to live with purpose and integrity. Our desire is to reach students and young adults in their environment, while focusing on issues they face every day. Our goal is to give them the tools necessary to make the right choices; this will enable them to reach their full potential. We strive to partner with educators to see this happen and provide creative messages on character.

As a nationally known organization, we are endorsed by school districts across the country. We strive to partner with educators and communities to provide creative messages on character, growth, and securing your future. Our night events are designed to impact entire campuses, communities, and cities. This gathering is to rally the entire community around this generation for support, affirmation, and empowerment. Together, we can provide the knowledge and strength to lift them above negative influences.

Your sponsorship in the amount of \$2,000.00 will help support our efforts to provide quality information and entertainment. The City of Vicksburg will be acknowledged during the event and a seal/logo will be displayed at the venue.

We would like to thank you in advance for your generous sponsorship and for helping to make a difference in the lives of young individuals.

Sincerely,

Tim Beck,

EIN: 82-4155614

School Assemblies & Community Night Events:

Our school assemblies exist for this very purpose: To move with urgency into each high school and middle school stressing the most powerful ability every person has... the ability of choice. We strive to partner with educators and provide creative messages on character, growth, and securing your future.

Our night events are designed to impact entire campuses, communities, and cities. This gathering is to rally the entire community around this generation for support, affirmation, and empowerment. Together, we can provide the knowledge and strength to lift them above negative influences.

Who Are We:

We are a group of ordinary individuals endeavoring to bring extraordinary change to the world. Changing the world? Big task! We know, but why not? We were not placed on this planet to just take up space. Everyone was created with purpose. All people, whether positive or negative, are influencers. Our desire is to make the most of our lives and leave a legacy that reaches generations yet to be born. History is still being written, so we are concerned about our story. The future is determined by our actions or lack thereof. There are many problems in the world today and few solutions. We will be a solution. In everything we do, excellence and integrity is at the forefront.

Why We Exist:

We exist to inspire students to live with purpose and integrity so they can become positive influencers to the world around them. Our desire is to reach students and young adults in their environment, while focusing on issues they face every day. Our goal is to give them the tools necessary to make the right choices; this will enable them to reach their full potential. We strive to partner with educators to see this happen and provide creative messages on character. The ultimate test of any civilization is what we do to our young. Securing our future is based upon how we respond now.

Endorsements:

"By far, participation in the Hydrate Tour was the best decision that I have made since assuming the role of Superintendent of Selma City Schools. The students of Selma City Schools experienced through music, dramatic recreations of life events, and testimonials, the power of their choices and the life defining outcomes of those choices. The event was truly transformational! I believe that the Hydrate Campus Tour has laid an unbreakable foundation for students that the district and community can build upon so that students will be conscience of the choices that lead to their ultimate wellbeing and success in life. On behalf of the Selma City School Family, thank you and all the wonderfully passionate volunteers for sowing seeds of LIFE into our students!" -- **Dr. Angela Mangum** (Superintendent of Selma City Schools)

"The Hydrate Campus Tour events are completely unrivaled in the school systems. In my 13 years as a student and 12 years as a teacher at Curry High School, I have never witnessed an event of this magnitude. The reputation of Hydrate fueled high expectations. My expectations, however, paled in comparison to the actual events. The Hydrate team was able to present a high-energy, jam-packed, understandable, educational, age-appropriate, relevant and emotionally gripping message that desperately needs to be heard by students today. Everyone loved it! It was so encouraging to see the whole community come together and have such a great time. The opportunity to work with Hydrate Campus Tours has been a highlight in my career. A true appreciation for what Hydrate offers can only be experienced; words simply won't do it justice! I can already sense a positive shift in school culture. I am excited to experience the effects in the community." -- **Kelli Porter** (Teacher at Curry High)

"Hydrate is an absolutely incredible, thought provoking performance. The students at Carver High School were totally captivated. Hydrate held their undivided attention on real issues that afflict today's teens. In fact, I have never seen them more attentive. Hydrate also provided a calm in the midst of turbulent times at our school. The impact of Hydrate was felt immediately and had a positive impact on the entire North Birmingham community. I will definitely have them back in the future. All schools and communities could benefit from Hydrate. My hats off to Tim and Bethany for being such a powerful force in the Birmingham-Metropolitan area, Carver High School, and in my life."

-- **Principal Dr. Charles L. Willis, Jr.** (G. W. Carver High School)

"The energy and passion that Hydrate has really stood out to me. You can tell they love what they do. The depth of the topics was what spoke to me the most. Hydrate was willing to go there and say the things that need to be said; the things our kids need to hear." -- **Principal Coker** (Tallassee High)
